Contents

Number 1, January 1991

1 T. I. A. ROACH, K. J. ELSE, D. WAKELIN, D. J. MCLAREN and R. K. GRENCIS: *Trichuris muris*: antigen recognition and transfer of immunity in mice by IgA monoclonal antibodies

13 N. W. BRATTIG, F. W. TISCHENDORF, G. STROTE and C. E. MEDINA-DE LA GARZA: Eosinophil-larval-interaction in onchocerciasis: heterogeneity of *in vitro* adherence of eosinophils to infective third and fourth stage larvae and microfilariae of *Onchocerca volvulus*

23 J. ARELLANO, J. GRANADOS, E. PÉRÉZ, C. FÉLIX and R. R. KRETSCHMER: Increased frequency of HLA-DR3 and complotype SC01 in Mexican mestizo patients with amoebic abscess of the liver

31 A. FERRANTE: Free-living amoebae: pathogenicity and immunity

49 P. G. TOYE, B. M. GOODEERIS, K. IAMS, A. J. MUSOKE and W. I. MORRISON: Characterization of a polymorphic immunodominant molecule in sporozoites and schizonts of *Theileria parva*

63 M. E. ROSE, D. WAKELIN and P. HESKETH: Interferon-gamma-mediated effects upon immunity to coccidial infections in the mouse

75 E. DEVANEY and R. M. JECOCK: The expression of the M_r 30 000 antigen in the third stage larvae of *Brugia pahangi*

89 W. MALEEWONG, C. WONGKHAM, S. PARIYANONDA, P. INTAPAN, V. PIPITGOOL, W. DAENSEEGAEW and N. MORAKOTE: Antigenic components of *Paragonimus heterotremus* recognized by infected human serum

95 B. J. ANDREWS and B. BJORVATN: Immunoprecipitation studies with biotinylated *Entamoeba histolytica* antigens

105 Brief communication

J. L. SEXTON, A. R. MILNER and N. J. CAMPBELL: *Fasciola hepatica*: immunoprecipitation analysis of biosynthetically labelled antigens using sera from infected sheep

Number 2, March 1991

109 Point of view
R. E. O'HEHIR and J. R. LAMB: The cellular and molecular basis of the human T cell response to *Dermatophagoides* spp. (house dust mite)

121 T. S. DUNN and T. P. YOSHINO: Tegumental surface modulation in *Schistosoma mansoni* primary sporocysts in response to ligand binding

137 R. GOLDMAN and C. L. JAFFE: Administration of β-glucan following *Leishmania major* infection suppresses disease progression in mice

147 A. AHMAD, R. G. BELL, C. H. WANG and F. R. SACUTO: Characterization of the thoracic duct T-helper cells that co-mediate, with antibody, the rapid expulsion of *Trichinella spiralis* in adult rats

161 T. R. BURKOT, Z. W. DA, H. M. GEYSEN, R. A. WIRTZ and A. SAUL: Fine specificities of monoclonal antibodies against the *Plasmodium falciparum* circumsporozoite protein: recognition of both repetitive and non-repetitive regions

171 D. J. L. WILLIAMS, J. NAESSENS, J. R. SCOTT and F. A. MCODIMBA: Analysis of peripheral leucocyte populations in N'Dama and Boran cattle following a rechallenge infection with *Trypanosoma congolense*

187 D. I. PRITCHARD, K. V. LEGGETT, M. T. ROGAN, P. G. MCKEAN and A. BROWN: *Necator americanus* secretory acetylcholinesterase and its purification from excretory-secretory products by affinity chromatography

201 L. A. MURILLO, C. L. ROCHA, A. L. MORA, J. KALIL, A. K. GOLDENBERG and M. E. PATARROYO: Molecular analysis of HLA DR4-β1 gene in malaria vaccinees. Typing and subtyping by PCR technique and oligonucleotides

211 S. PIED, L. RÉNIA, A. NÜSSLER, F. MILTGEN and D. MAZIER: Inhibitory activity of IL-6 on malaria hepatic stages

219 Brief communication
E. M. FRASER and M. W. KENNEDY: Heterogeneity in the expression of surface-exposed epitopes among larvae of *Ascaris lumbricoides*

Number 3, May 1991

227 R. J. BOISVENUE, M. I. STIFF, L. V. TONKINSON and G. N. COX: Protective studies in sheep immunized with cuticular collagen proteins and peptides of *Haemonchus contortus*

241 M. F. SHAIO, F. Y. CHANG, S. C. HOU, C. S. LEE and P. R. LIN: The role of immunoglobulin and complement in enhancing the respiratory burst of neutrophils against *Trichomonas vaginalis*

251 V. MCDONALD, R. M. A. DEER, J. M. S. NINA, S. WRIGHT, P. L. CHIODINI and K. P. W. J. MCADAM: Characteristics and specificity of hybridoma antibodies against oocyst antigens of *Cryptosporidium parvum* from man

261 A. N. SCHWEITZER and D. W. TAYLOR: MHC-restriction of antibody responses to an 86 kilodalton antigen of *Schistosoma mansoni*

277 K. P. DAY, W. F. GREGORY and R. M. MAIZELS: Age-specific acquisition of immunity to infective larvae in a bancroftian filariasis endemic area of Papua New Guinea

291 P. M. GRAVES, A. DOUBROVSKY and P. BECKERS: Antibody responses to *Plasmodium falciparum* gametocyte antigens during and after malaria attacks in schoolchildren from Madang, Papua New Guinea

301 A. BJÖRKMAN, M. LEBBAD, H. PERLMANN, T. FREEMAN, B. HOGH, E. PETERSEN, E. GILLE, A. LINDGREN, M. WILLCOX, A. P. HANSON and P. PERLMANN: Longitudinal study of seroreactivities to Pf 155/RESA and its repetitive sequences in small children from a holoendemic area of Liberia

313 Y. HARARI and G. A. CASTRO: Reconstruction of immune-mediated ion secretion in gut mucosa of the athymic rat

329 S. CHAR, N. SHETTY, M. NARASIMHA, E. ELLIOTT, R. MACADEN and M. J. G. FARTHING: Serum antibody response in children with *Giardia lamblia* infection and identification of an immunodominant 57-kilodalton antigen

339 Brief communication
G. ENTRICAN, C. J. MCINNES, M. LOGAN, P. M. PRESTON, S. MARTINOD and C. G. D. BROWN: Production of interferons by bovine and ovine cell lines infected with *Theileria annulata* or *Theleiria parva*

Number 4, July 1991

345 R. T. GAZZINELLI, M. E. S. PEREIRA, A. ROMANHA, G. GAZZINELLI and Z. BRENER: Direct lysis of *Trypanosoma cruzi*: a novel effector mechanism of protection mediated by human anti-gal antibodies

357 F. WUNDERLICH, P. MARINOVSKI, W. P. M. BENTEN, H.-P. SCHMITT-WREDE and H. MOSSMANN: Testosterone and other gonadal factor(s) restrict the efficacy of genes controlling resistance to *Plasmodium chabaudi* malaria

369 A. P. MCLEAN, F. A. LAINSON, A. M. SHARKEY and D. WALLIKER: Genetic studies on a major merozoite surface antigen of the malaria parasite of rodents, *Plasmodium chabaudi*

379 F. PERSAT, C. VINCENT, M. MOJON and A. F. PETAVY: Detection of antibodies against glycolipids of *Echinococcus multilocularis* metacestodes in sera of patients with alveolar hydatid disease

391 M. ROBINSON, C. J. KRCO, T. G. BEITO and C. S. DAVID: Genetic control of the immune response to *Trichinella spiralis*: recognition of muscle larval antigens

405 H. KUMAR, C. BALDWIN, D. W. BIRCH, D. A. DENHAM, F. DE MEDEIROS, I. T. C. MIDWINTER and A. SMAIL: Circulating filarial antigen in cats infected with *Brugia pahangi* is indicative of the presence of adult worms

413 R. W. PALING, S. K. MOLOO, J. R. SCOTT, F. A. MCODIMBA, L. L. LOGAN-HENFREY, M. MURRAY and D. J. L. WILLIAMS: Susceptibility of N'Dama and Boran cattle to tsetse-transmitted primary and rechallenge infections with a homologous serodeme of *Trypanosoma congolense*

427 R. W. PALING, S. K. MOLOO, J. R. SCOTT, G. GETTINBY, F. A. MCODIMBA and M. MURRAY: Susceptibility of N'Dama and Boran cattle to sequential challenges with tsetse-transmitted clones of *Trypanosoma congolense*

447 T. SLOAN, D. DOOGE and P. JOYCE: Identification of phosphorylcholine containing antigens of *Fasciola hepatica*—successful tolerization against this epitope in experimental animals

Number 5, September 1991

457 F. PARRODI, R. H. JACOBSON, I. G. WRIGHT, C. J. FITZGERALD and C. DOBSON: The effect of immune serum and complement on the in vitro phagocytosis of *Babesia rodhaini*

473 D. BOULANGER, C. D. F. REID, R. F. STURROCK, I. WOLOWCZUK, J. M. BALLOUL, D. GREZEL, R. J. PIERCE, M. F. OTIENO, S. GUERRET, J. A. GRIMAUD, A. E. BUTTERWORTH and A. CAPRON: Immunization of mice and baboons with the recombinant Sm28GST affects both worm viability and fecundity after experimental infection with *Schistosoma mansoni*

491 J. E. LILLYWHITE, D. A. P. BUNDY, J. M. DIDIER, E. S. COOPER and A. E. BIANCO: Humoral immune responses in human infection with the whipworm *Trichuris trichiura*

509 M. E. PATARROYO, J. VINASCO, R. AMADOR, F. ESPEJO, Y. SILVA, A. MORENO, M. ROJAS, A. L. MORA, M. SALCEDO, V. VALERO, A. K. GOLDBERG and J. KALIL: Genetic control of the immune response to a synthetic vaccine against *Plasmodium falciparum*

517 K. D. WINKEL and M. F. GOOD: Inability of *Plasmodium vinckei*-immune spleen cells to transfer protection to recipient mice exposed to vaccine 'vectors' or heterologous species of plasmodium

531 C. MELLER-MELLOUL, C. FARNARIER, S. DUNAN, B. FAUGERE, J. FRANCK, C. MARY, P. BONGRAND, M. QUILICI and S. KAPLANSKI: Evidence of subjects sensitized to *Leishmania infantum* on the French Mediterranean coast: differences in gamma interferon production between this population and visceral leishmaniasis patients

537 P. ABRANCHES, G. SANTOS-GOMES, N. RACHAMIM, L. CAPINO, L. F. SCHNUR and C. L. JAFFE: An experimental model for canine visceral leishmaniasis

551 E. A. GREGÓRIO and N. A. RATCLIFFE: The prophenoloxidase system and in vitro interaction of *Trypanosoma rangeli* with *Rhodnius prolixus* and *Triatoma infestans* haemolymph

565 Brief communication
C. R. BAUTISTA-GARFIAS, O. FLORES-HERNANDEZ and H. QUIROZ-ROMERO: Non-specific resistance of sheep against *Haemonchus contortus* with Freund's complete adjuvant

Number 6, November 1991

571 N. C. SMITH, K. S. OVINGTON and C. BRYANT: Free radical generation and the course of primary infection with *Nippostrongylus brasiliensis* in congenitally athymic (nude) rats

583 F. SÁNCHEZ, F. MARCH, M. MERCADER, P. COLL, C. MUNOZ and G. PRATS: Immunochemical localization of major hydatid fluid antigens in protoscoleces and cysts of *Echinococcus granulosus* from human origin

593 J. C. HAVERCROFT, A. L. SMITH and R. H. WILLIAMS: *Schistosoma mansoni*: immuno-localization of the calcium binding protein Sm20

605 P. WILLADSEN and R. V. MCKENNA: Vaccination with 'concealed' antigens: myth or reality?

617 H. S. GILL: Genetic control of acquired resistance to haemonchosis in Merino lambs

629 D. A. P. BUNDY, J. E. LILLYWHITE, J. M. DIDIER, I. SIMMONS and A. E. BIANCO: Age-dependency of infection status and serum antibody levels in human whipworm (*Trichuris trichiura*) infection

639 R. FALCOFF, M. BARRAL-NETTO, C. STIFFEL, Y. BOUTHILLIER, A. BARRAL, L. A. FREITAS, J. C. MEVEL and D. MOUTON: Variations in susceptibility to *Leishmania amazonensis* infection in lines of mice selected for high or low immunoresponsiveness

649 B. GOTTSTEIN and T. E. NASH: Antigenic variation in *Giardia lamblia*: infection of congenitally athymic nude and *scid* mice

661 R. P. LEE, L. A. JACKSON and J. P. OPDEBEECK: Immune responses of cattle to biochemically modified antigens from the midgut of the cattle tick, *Boophilus microplus*

673 A. E. BROWN, P. TEJA-ISAVADHARM and H. K. WEBSTER: Macrophage activation in vivax malaria: fever is associated with increased levels of neopterin and interferon-gamma

681 M. WAHLGREN, M.-T. BEJARANO, M. TROYE-BLOMBERG, P. PERLMANN, E. RILEY, B. M. GREENWOOD, M. E. PATARROYO, C.-I. GONZALES and A. MARTINEZ: Epitopes of the *Plasmodium falciparum* clustered-asparagine-rich protein (CARP) recognized by human T-cells and antibodies

695 Brief communication
V. VIYANANT, P. SOBHON, E. S. UPATHAM and T. KUSAMRAN: *Schistosoma japonicum* (Chinese strain): characterization of two monoclonal antibodies which recognized common epitopes in the tegument of adult worms and schistosomula

699 Author index to Volume 13
